

Thursday 26th June 1866
Left Inverness for Edinburgh
Saturday. All the children came with us to the
Station. A could not trust herself to come. John
Chapman got our seats sealed comfortably & took care
by to all our dear ones who waited for us. There were
at the end of the line & then on our way to the coast
is that we should have some good dear friends. I think
they really did give satisfaction of that kind of which
you are reminded of. The day was intensely hot but
the country was beautiful. They were very kind
to be kind in the night & then they came as into a
cottage for Edinburgh & went to the Glasgow
with nothing more different. I was much about
the same then. We got a cab on our arrival.
