

breakfast we all wrote Missy & I between us wrote to Chaps &
Newton Pops Bank two letters. Mary had her usual paper
Mr. Sands brought Kalkumook & his three children. They were
to Mr. Craigie to which I George went about a box of hay that
did not come. The Capt went on shore his wife is on
the ship with two fine boys. The land lunch I talked a little
with some of the passengers. At dinner time George came back he
had got his box. At eight for sailing. The Capt sent his wife
& children on shore. The purse also. I wrote off about 4000. After
after writing another letter to Alice my sister & Chaps we went to
bed.

15th Sunday. - Hugh told us last night we should not sail this
of a Sunday as the ship is only just preparing for sailing. The crew do be
all taken up with their usual work. At after breakfast we read by reading
a nice journal of Lady journal one where she sees the scenery. I asked her
if I would allow her to give me which I willingly did. She proposed
should have a Sabbath school amongst the emigrants & by next Monday
I hope we shall if possible be able to make arrangements for this. The
family of Misses & Miss Kennedy are I think recently married.

They have some new books I got them around me & heard of
a sermon of Dr. Guthrie in English. All upon deck was like an
other day. The children of emigrants playing after the emigrants
themselves parading up & down the Capt says all will be up
by next Sunday. The Capt at dinner time gave me notice to go
to him to the ladies when to go away from table. He would follow
immediately which I did. We had ourselves & after being a little
while on deck George & we took a great walk up to the deck. The
passage down last looking to look for the they was kind of a
& the latter on the white cliffs was very thick. The day passed
very quiet & easy. I suppose the Pilot is to leave us on the
day at the mouth of the bay. The wind is fair so I hope we shall get on
quite well at the sooner we get into the Bay. We had the
one letter to the Capt. I only to George had a letter to the Capt.
where he writes to the Capt. The Pilot leaves at 3. The next
day.

16th Feb. So kind I thought I should like to remain a little
in bed but to my horror the first bill came & still it was only
the last of the breakfast table. When we had Brown's & John's
at such place George came & told us they were half done. They
