

Diary Continued

March 1st Lat. no sun Long. no sun

Dis 133 m^{ls} Heat 75° flying fish seen

2nd No Sun. Dis by dead reckoning

84 miles a ship about 10 miles off

It poured in torrents of rain all day

a splendid rainbow & sun set never

saw such a sight. A large shark seen

3rd Lat 33.1 Long 20.47 Dis 103. Heat 70

Heat is gradually decreasing. The ship

that we saw yesterday sent a boat

over to us at 7 in the morning 3 men

& their 1st mate they had broken their

Chronometer (a very serious loss for them)

they are from New York to Shanghai

but we had not one to spare. They

will have to put in some port if they

to not get one. The ship sailed so close

that we called out to each other &

asked questions about where they

were bound for &c
