

Whatever happens won't make up for missing a share in our first victory of the war. The whole Bde is down east. The whole affair was fought out in better winds & sandstorms, today is perfect.

3-4 blivins

Very roughhanded but general idea. Our people made a big flunk march to get round.

A great show for the old Regular Army. We were the only other force in the Western Desert, have been here since July - longer than the Indian D. Should have been in the party, were to have been until recently, but that I'll have to wait to tell you about when we meet again.

My son & dunnies had the pleasure of taking a Corps Commander & 2 blivins Commanders on one step into captivity.
