My dear May

Howard received a very welcome
letter from Glen. I am pleased & surprised
much as to did in mine, & is full
loosely together from Rangora
is quite anything to look in the you
see, I have been desperately concerned
as times. I have been living a very
busy life on the go see the in. But
am longing to get settled in a time
this social life is no good to me.
Everyone is so kind & Howard has
made many friends here. It really
is a very busy man, spends most
of the morning answering letters mostly
in connection with his work. We go out
to lunch with someone, then to go to
that for hours for a couple of hours.
Sometimes I am back to Lincoln House
when we are staying or go out for a
drive with Harold, he knows is Howard

like I have no show, sometimes, I see in
He has a hour waiting for him, very
interesting watching the people etc. When
back there for dinner, went again, sounds
rather good but gets very boring. I
I had a bad week but it would be different.
Howard is on quite a lot of Committee.
& a lot of these dinner etc are duty etc.
He is on a big conference now, forgotten
what it is, he is the R.J. representative, it
was last a fortnight, so I am staying
out here with the running District
or deans to get our house in one
sort of order as the same time simplify
things etc. I have been looking round
second hand shops & buying odd bits
of furniture. We only get them furniture
I am trying to make it a bit more
domestic. It is a very large house
& it is going to take some doing to get
it in order. I am longing to get
Howard out here in mine to will feel
better, but to see has a lot of work
to finish in London, to get very tired
