

20 Mon

Spent the most of the day in our bivvy did some writing reading & sleeping. Went on guard at 8 p.m. until 11-30 p.m. then finished for the night. We slept in the dumps & were awakened very early by the tedious row ^{ed} the muggers on the Canal transport corps. They start loading at 3 a.m. & the place is busy then until dark at night. French soldiers on guard here. They are much harder on muggers than us.

21 Tues

Came off guard at 7 a.m. had an easy day in our camp. Did a little reading writing & sleeping. This guard is a good job & we all say it will do us for the duration of the war. Plenty of firing going on in the direction of Gaza but we are well behind the scenes now & like the rest here think they sound very well in the distance.
