

A route march with mules.

Descending rocky hill-side.

Camp water-point. Zabboud.

Sketches I made of large caterpillar & the flower-head of the plant (weed). Dozens of the things feeding on the flower-heads in field near camp. Natives called them "doodies". Kept a dozen or more in empty tin but never found out what they turned into. Had a pet tortoise in this place. Name Dopey.

Taking supplies to our troops on "Gibraltar".

Arab with flock.
