

91 family arrived. However, it would
be a change from the quiet exist-
-ance you & Dad had been lead-
-ing.

I say, what "ago" about the old
"Scorp" & the "Scarab" I sent.
The smell I mean. Yes, I
guess there was a stink. I laughed
when I read your letter. I had
removed the inside of the Scorp.
& put in cotton wool, but of
course they were sealed up in the
tin & would have gone through
the tropics all before reaching
you. So there was bound to be
some smell.
