21 of May in a letter to the boys etc. that
evening the fact in a general knowledge they were
one of the boys' trust. There is something on in
the camp cinema each evening - either talks or
a concert or both. The "Education" has from Vienna
- Prof. Wilkes did some hypnosis one night +
had five soldiers on the stage doing various things
wondered them to do. It really was amazing + no fake
about it.
Well, I must close now. Long love to you
on the home.
