an ~~thing~~ of a very good book on the stars
— a star which you could call it.
None of our chaps had a copy when
we were in the desert, two years ago.
Yesterday I had an airgraph
from Leath Clarke (of the pier.) He
is in the Army, in Wellington.

Well, my dear, it is an effort
to write so, will close. How fit
swell I hope you are the same
in Nelson. I trust there isn't
a sand storm blowing as there is
here.

Love from your son,
Rewai
