

2) a walk over the hill behind the camp, for exercise mainly. Among the bushes we put up a fox - a brown one with a good bush. This afternoon we went out again, I with my pistol & my friend with a rifle. We went to the same spot and saw Mr. Fox. I fired all my six rounds & Bill fired one with his rifle but all missed. The fox ran into a series of crevices among the rocks in a wadi. We went out again tomorrow when I will take a Tommie gun. How would you like a fur? Mmm? The almond blossoms now - we are a sea of white foam. The weather is perfect & warm during the day. Tomorrow I'm on a Cobb & Marshall as a member. There is always something to do, but we are not very busy at the moment. Yes, the wool news is very good. I hope Paddy is O.V. & that he comes out sometime. Quite a number of kins have been liberated by the Russians. Will have to close now. Trusting you are all O.K. in Nelson. Love from Hawaii X
